INTRODUCTION

Quantity Surveying and Cost Engineering is also referred to as construction economics, building economics, construction cost management, cost engineering, etc. All these names generally refer to the key professionals providing the services of the Quantity Surveyor and Cost Engineer. A wide range of services are provided by the Quantity Surveyor and Cost Engineer for all those involved in or associated with building and construction. These services are outlined on page 2.

The Pacific Association of Quantity Surveyors (PAQS) has produced this Registrar of Quantity Surveying and Cost Engineering Companies and Practices as an easy reference for those seeking the services of Quantity Surveyors and Cost Engineers in any country in the PAQS region. Over 135,000 Quantity Surveyors and Cost Engineers are represented by the PAQS member Institutes which are the:

Association of South African Quantity Surveyors (ASAQS)
Australian Institute of Quantity Surveyors (AIQS)
Building Surveyors Institute of Japan (BSIJ)
Canadian Institute of Quantity Surveyors (CIQS)
China Cost Engineering Association (CCEA)
Fiji Institute of Quantity Surveyors (FIQS)
Hong Kong Institute of Surveyors (HKIS)
Indonesian Association of Quantity Surveyors (IQSI)
Institute of Quantity Surveyors Sri Lanka (IQSSL)
Institution of Surveyors, Engineers & Architects, Brunei (PUJA)
Korea Institution of Quantity Surveyors (KIQS)
New Zealand Institute of Quantity Surveyors (NZIQS)
Philippine Institute of Certified Quantity Surveyors (PICQS)
Royal Institution of Surveyors Malaysia (RISM)
Singapore Institute of Surveyors & Valuers (SISV)

The QS companies and practices listed in this Register are those that have demonstrated an interest in international business and working with other QS and clients within their own and other countries.

The Register provides useful information on the qualifications, professional service, specialist experience and location of the various PAQS member's QS businesses, as well as the contact names and details for those businesses.

The QS companies/practices listed in this Register have only been included after their applications have been reviewed and approved by the specific national institute member of the PAQS. Any person or company seeking to acquire the services of a QS in any of the countries in the PAQS region are encouraged to use this Register and the information contained in it.

WHO USES QS AND CE SERVICES

Quantity Surveying and Cost Engineering services are used by a wide range of other professionals, entrepreneurs, government agencies and members of the public. These include:

Building and Construction

Architect, Builders, Construction companies, Developers, Contractors, Property Owners, Property Managers, Bodies Corporate and Building Managers.

Related Professions

Accountants, Solicitors, Bankers, Finance companies, Insurance companies.

Governments and Other Industries

National and State Government departments of Public Works, Defence, Health, Education, Minerals and Energy, Transport, etc. plus Local Government/Councils.

Mining companies, Petro-Chemical companies, Agricultural companies, Forestry, Gas companies, etc. Statutory Authorities for rail, airports, telecommunication, sports, electricity and water supply, rivers and harbours, space, etc.

The Public

Investors, Home owners, Apartment owners, Body Corporate, Heritage listed building owners, etc.

SERVICES PROVIDED BY PAQS MEMBERS

Quantity Surveyors and Cost Engineers can provide a wide range of services for building, construction and industry at large, based upon their academic education, job training, years of experience and continuing professional development.

These services include but not limited to:

Arbitration/Mediation, Contract Management, Bills of Quantities, Cost Planning and Management, Cost Estimating, Due Diligence Assessments, Feasibility Studies, Insurance Replacement Valuations, Project/-Construction Management, Risk Management, Tax Depreciation (Domestic), Tender Documentation, Value Management, Specification Writing and Expert Witness.

While some members will not have list experience in all specialist areas, in most instances they would have the capacity to acquire the particular knowledge to undertake new specialised projects. Clients should discuss their requirements with selected members and ascertain whether the member has the capabilities available to them to meet their particular needs.

PAQS members may have experience on the following types of projects:

Airports, Bridges, Civil Construction, Commercial Developments, Education Projects, Harbour Works, Health Projects, Heritage Listed Properties, Industrial Construction, Justice Projects, Mining, Other Resource Industry, Petro-Chemical, Pipelines, Power Supply, Prisons, Process Engineering, Railways, Residential/High Density, Retail Projects, Roads, Service Industry, Sewerage, Swimming Pools, Theme/Amusement Parks, Tunnels, Water Supply/Storage, Waterways, Sports Complexes, Theatres, Entertainment Centres.

PAN PACIFIC CHARTER

The below 1994 documents gave the initial approval to establish the Pacific Association of Quantity Surveyors which are officially constituted in 1996.

20 May 1994

***PAN PACIFIC QUANTITY SURVEYING ASSOCIATIONS
REGIONAL CO-OPERATION WORKSHOP***

Esplanade Hotel, Fremantle, Western Australia

The undersigned representatives of Quantity Surveying Associations of their respective nations, meeting in Fremantle, Australia on 20 May 1994,

- Recognising that there is a world market for professional services and employment;
- Cognizant of the mobility of their members within the world market and the Pan Pacific region in particular;
- Mindful of the need to enhance their members' existing skills, develop new skills and to encourage high standards of technical and professional conduct;
- Believing that quantity surveyors and construction economists will benefit from the regular exchange of knowledge, professional development, standards and operational research;
- Desiring to develop closer relationships between their associations and with other associations in the Pan Pacific region and elsewhere in the world.

Therefore agree,

- That they formally acknowledge the organisations represented in this document as being the recognised representatives of the Quantity Surveying profession in their respective nations.
- That they will lay the findings of the workshop which are agreed to form part of this resolution, before their respective governing councils with a view to establishing a commitment to regional co-operation in these fields within the profession of Quantity Surveying.

PAQS CONGRESSES

Each year a member country of the PAQS hosts the PAQS annual Board meeting in conjunction with a major international Congress.

Future PAQS Congresses are planned for:

2021	Philippines
2022	Singapore
2023	Sri Lanka

Details of PAQS Congresses and other PAQS activities can be found on the PAQS website at:

www.paqs.net
